

We are back after the rainy season.

Ever since our return we have had elephants, max the hippo and leopards around the chalets and in the lodge grounds.

It wasn't long before our pride of lions returned and we are also hearing roaring on both sides of the Kafue River.

The Jackals are daily visitors around the camp at night and on two occasions we have found the tracks of a hyena passing through.

Bird life is still great as the migrants haven't headed out and fish eagles are often seen.

It's just so wonderful to be back in this amazing piece of paradise, come and visit.
